

WISE TELEMETRY ADDS VP OF BUSINESS DEVELOPMENT AND OPERATIONS

Nick Marco Joins Wise Telemetry as Company Continues to Expand

FOR IMMEDIATE RELEASE

PITTSBURGH, PA January 21, 2019 — Wise Telemetry is pleased to announce the addition of Nick Marco as Vice President of Business Development and Operations. Marco will be responsible for helping customers identify how telemetry can help them reach their operational and financial goals while maximizing customer service.

Marco comes to Wise Telemetry from Linde where he had three years of experience as a project manager in bulk gases overseeing storage and application equipment system installations. During his time there, Marco worked on projects throughout the eastern United States as well as the Caribbean. He also is a graduate of Linde's "LEaD" leadership development program.

"I am thrilled to join the Wise Telemetry team," Marco says. "Wise is in a unique position to help accelerate the gas industry's shift into the IIoT space. I look forward to helping this dynamic company grow, and most importantly, serving our customers."

As Wise Telemetry continues to expand its product offerings and industry partnerships in 2019, Marco asks that anyone interested in improving their business with telemetry contact him at 570-687-7461 or nmarco@wisetelemetry.com. He also can provide support and consultation on ways to seamlessly transfer from legacy telemetry systems through Wise's various platform transfer programs.

Marco holds a double major bachelor's degree from Carnegie Mellon University in Materials Science and Engineering as well as Engineering and Public Policy. He currently resides with his wife, Lauren, in Pittsburgh.

###

About Wise Telemetry

Wise Telemetry is a leading provider of remote monitoring devices and services for the industrial gas and propane industries. Founded in 2014 by Eric Wise, the company has the capacity to monitor every aspect of gas distribution from tanker trucks and bulk tanks to dewars and cylinders. Wise Telemetry is a proud member of the Gases and Welding Distributors Association (GAWDA) and the International Beverage Dispensing Equipment Association (IBDEA).
